1/ Total production includes 9,930,000 bushels of clingstone varieties in Calif. which were not harvested on account of market conditions. Of this unharvested quantity, 6,180,000 bushels were sold but left on the trees. These were included in computing sales, value of production, and value of sales. The remainder, 3,750,000 bushels, was excluded from these computations.

2/ Includes 500,000 bushels of freestone varieties in California not harvested on account of market conditions, which were excluded in computing value of production.

1/ Total production includes 3,571,000 bushels of clingstone varieties in California which were not harvested on account of market conditions. Of this unharvested quantity, 1,404,000 bushels were sold but left on the trees. These were included in computing sales, value of production and value of sales. The remainder, 2,167,000 bushels, was excluded from these computations.
